

Arke Systems Awarded Microsoft Gold Certified Partner Status

ATLANTA, July 29, 2008 - Arke Systems, an Atlanta-based technology-consulting firm, announced it has been awarded Gold Certified status in the Microsoft Partnership Program. [Microsoft Gold Certified](#) partners represent the highest level of competence and expertise with Microsoft technologies. As a Gold Certified partner, Arke Systems has demonstrated a proven ability to meet customers' needs and deliver exceptional solutions to clients. Arke Systems exceeded Microsoft's certification requirements, with client survey scores surpassing other partner scores by an average of 20%. Microsoft Gold Certified partners receive numerous benefits, including access, training and support, which offer their clients a competitive advantage in the marketplace.

"Our customers enjoy working with familiar Microsoft products to streamline processes across their businesses," states Chris Spears, Principal, Arke Systems, "By aligning Arke Systems with Microsoft at the highest level we are able to be more accessible and helpful to the average business owner."

Arke Systems provides [custom software](#) and integrations for a number of verticals including application development, business intelligence, data management, and eCommerce. Arke employs a constantly evolving project methodology to guarantee that customers always receive the highest quality software products on time and within budget. Its partnership with Microsoft has allowed Arke to effectively provide clients [Dynamics CRM](#) and [SharePoint](#) products that can be used to advance client's businesses as competent IT solutions.

Arke Systems prides itself on having a solid understanding of customer needs and acknowledges that its rapid success is a result of this understanding, its technical resources, and its loyal customer base. "By partnering with Microsoft, Arke Systems will continue to meet our clients' needs by delivering significant new enhancements to our breakthrough business process models and technology, at an even better competitive advantage than before," says Eric Stoll, Principal, Arke Systems.
