

## Arke Systems Ranked as Top-Rated Partner Nationwide by Microsoft

ATLANTA, April 9, 2009 - Arke Systems, an Atlanta-based technology-consulting firm, has been ranked as Microsoft's #2 Top-Rated Partner in their national partner locator list, published at [Microsoft Pinpoint](#).

Microsoft Pinpoint is a unified source for consumers to quickly and easily find qualified Microsoft partners, vendors, products, and services that best fit their technology needs. "Having the ability to connect easily with a top-rated Microsoft partner allows companies to quickly build relations and execute on critical initiatives," explains Eric Stoll, Principal, Arke Systems. "To be recognized as the #2 top-rated company nationwide by Pinpoint is a testament to our customer services and ability to deliver value added services."

Arke Systems was awarded Gold Certified status by Microsoft in their Partnership Program in July 2008. [Microsoft Gold Certified](#) partners represent the highest level of competence and expertise with Microsoft technologies. As a Gold Certified partner, Arke Systems has demonstrated a proven ability to meet customers' needs and deliver exceptional solutions to clients. Arke Systems exceeded Microsoft's certification requirements, with client survey scores surpassing other partner scores by an average of 20%. Microsoft Gold Certified partners receive numerous benefits, including access, training and support, which offer their clients a competitive advantage in the marketplace.

"Our customers enjoy working with familiar Microsoft products to streamline processes across their businesses," states Chris Spears, Principal, Arke Systems, "By aligning Arke Systems with Microsoft at the highest level we are able to be more accessible and helpful to the average business owner."

Arke Systems prides itself on having a solid understanding of customer needs and acknowledges that its rapid success is a result of this understanding, its technical resources, and its loyal customer base.
